OBJECT ORIENTED PROGRAMMING

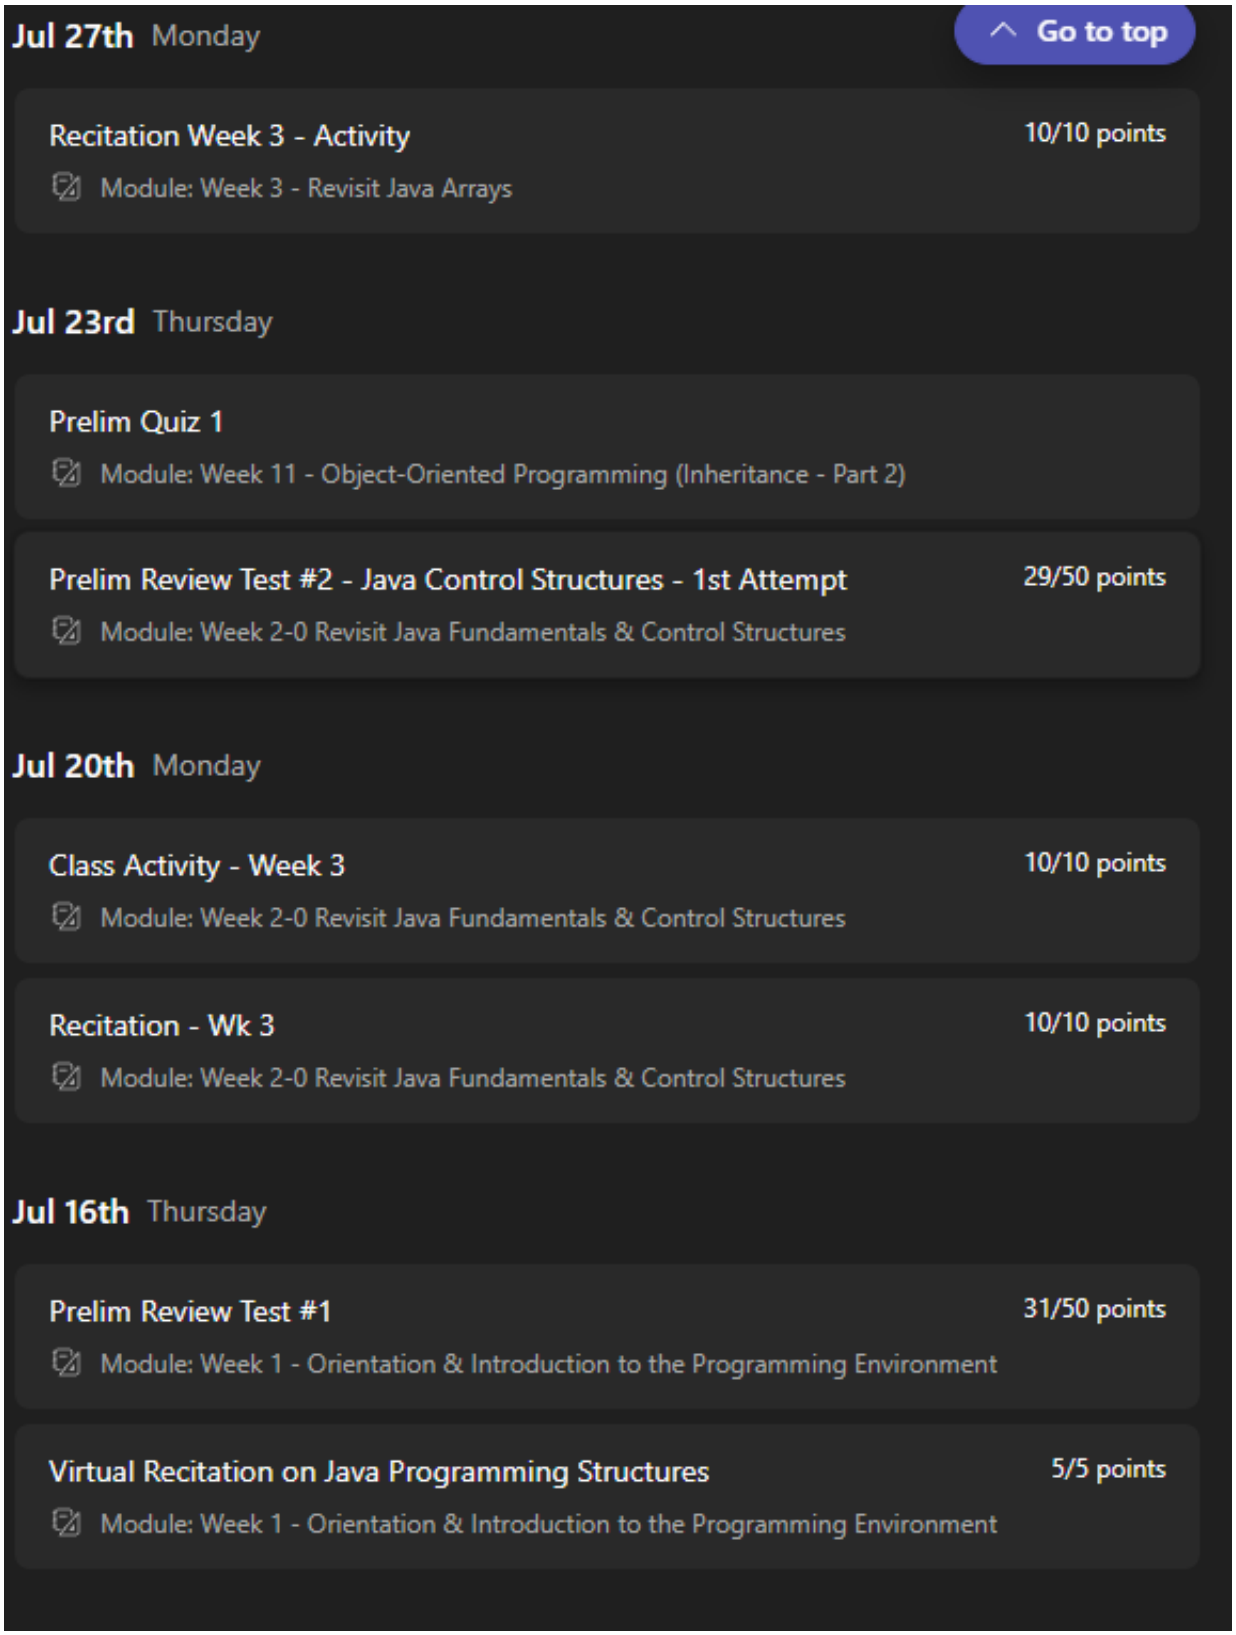

Activities & Assessment Evidence

Eunice Rya Leigh Dela Cruz
BS Information Technology · Jose Rizal University

This document compiles the screenshots currently available for the Object Oriented Programming e-portfolio. Scores are shown only when visible in the supplied records. Activities with inaccessible scores are identified as submitted or score unavailable.

Preliminary Term

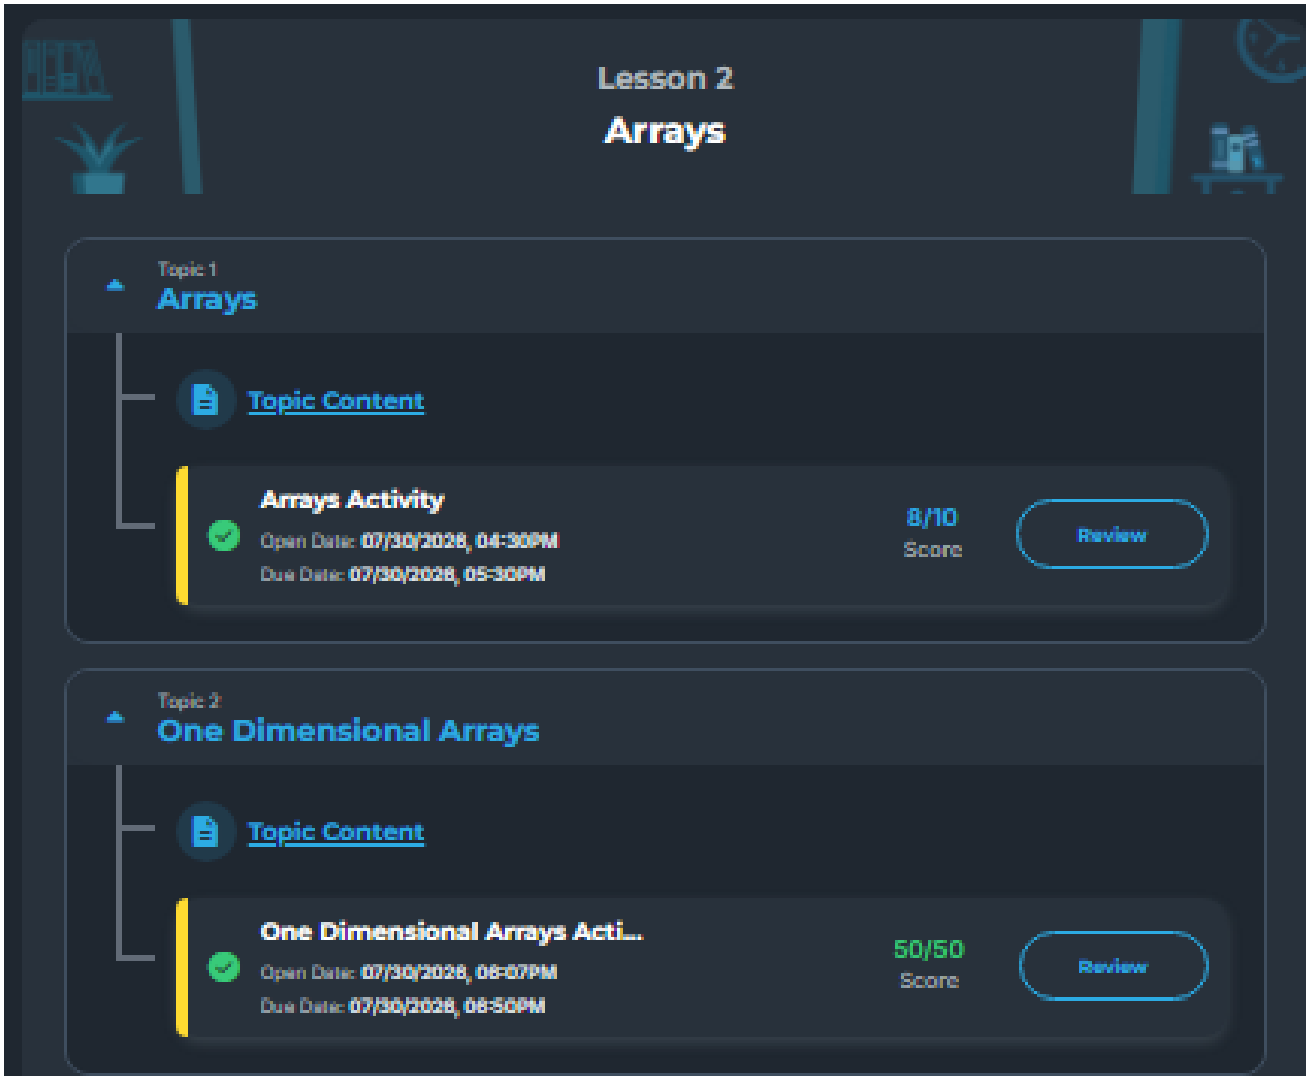

Prelim review tests, recitations, and quiz records

Lesson 1 – Iterative Structures

Lesson 2 – Arrays

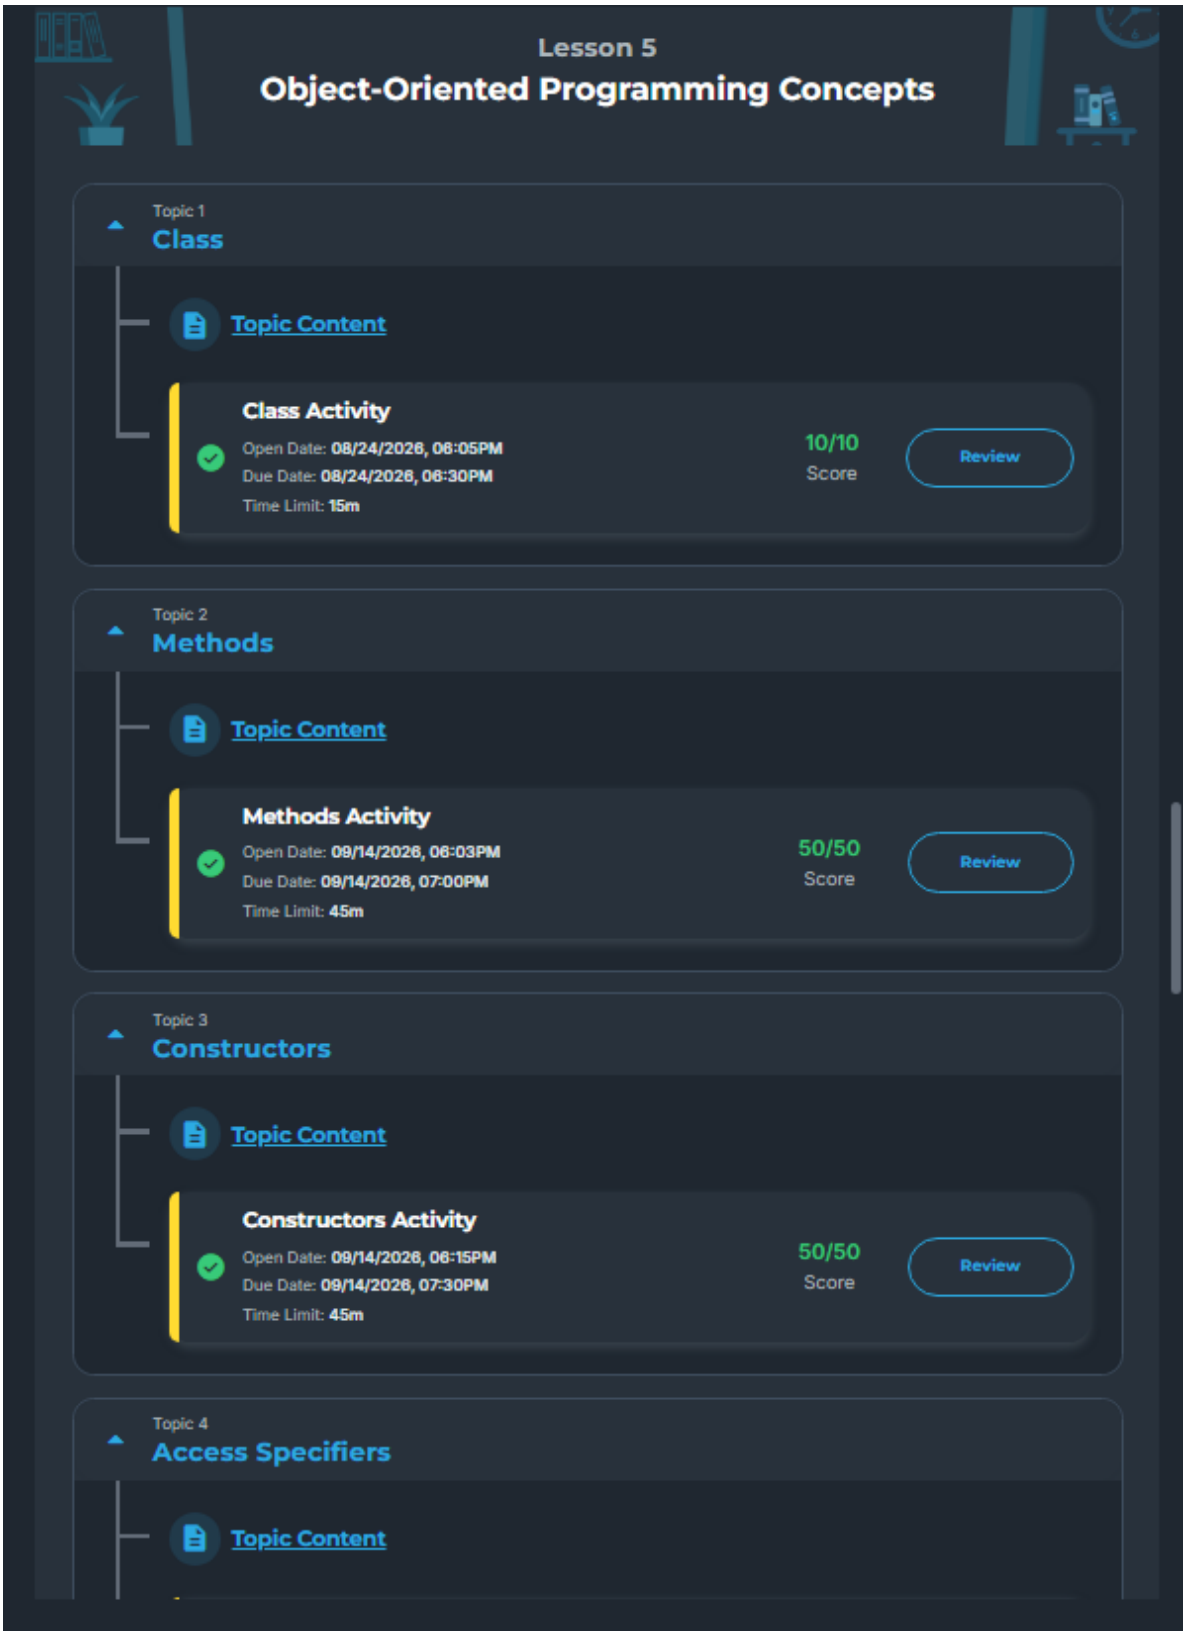

Lesson 3 – Functions and Methods

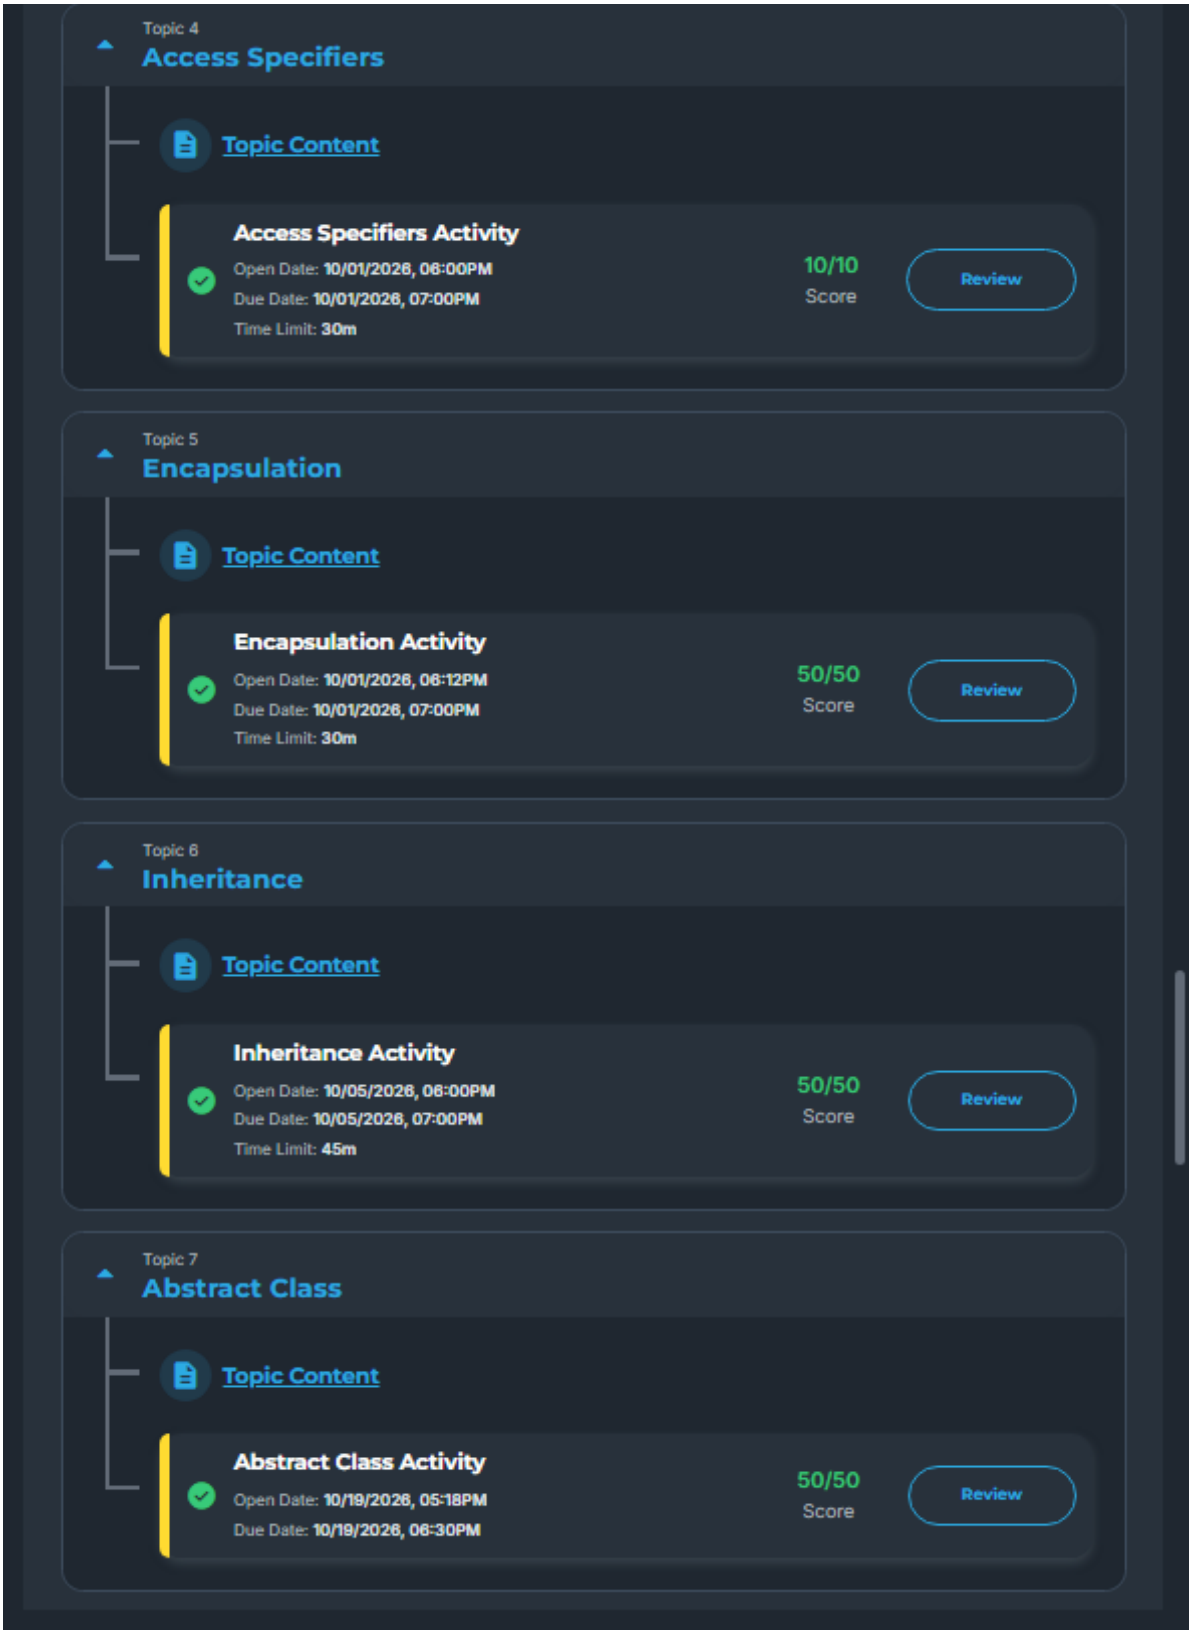

Midterm Term

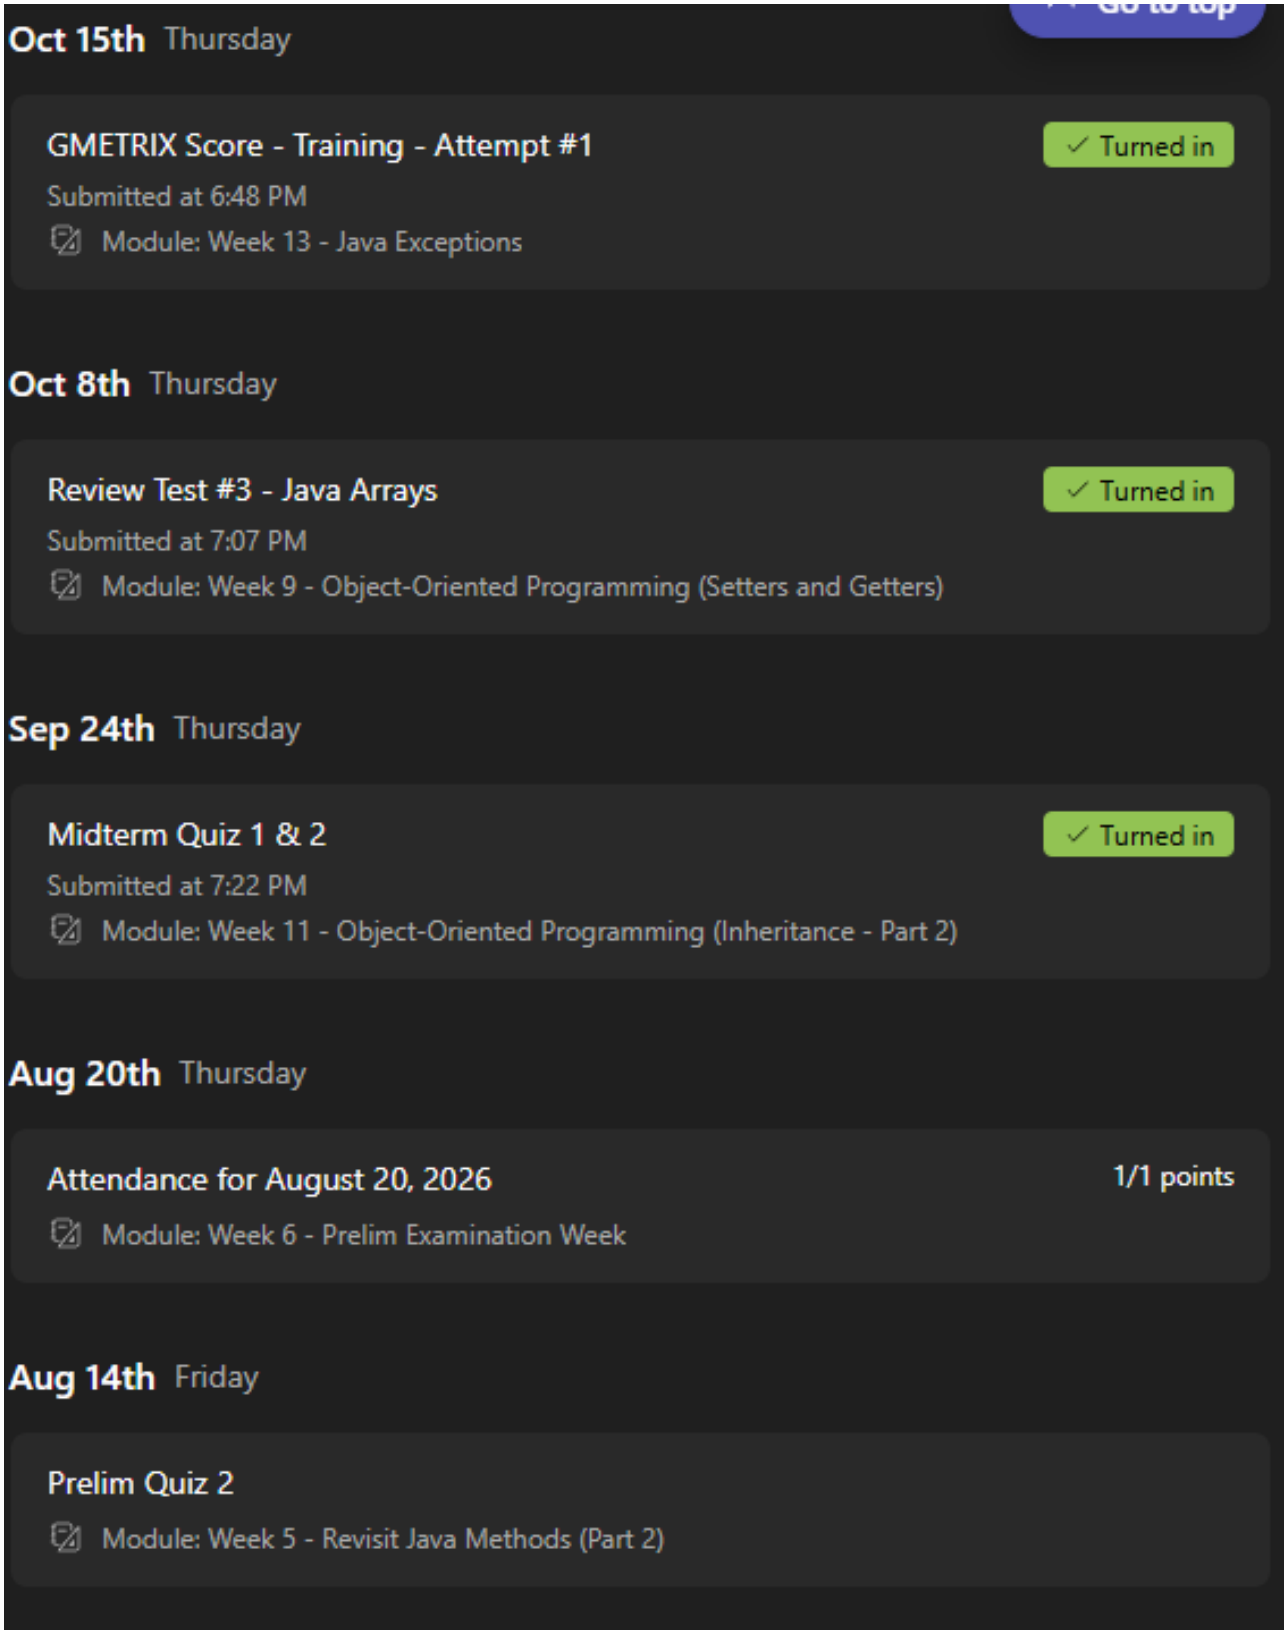

Object-Oriented Programming – Classes, Methods, Constructors

Access Specifiers, Encapsulation, Inheritance, Abstract Class

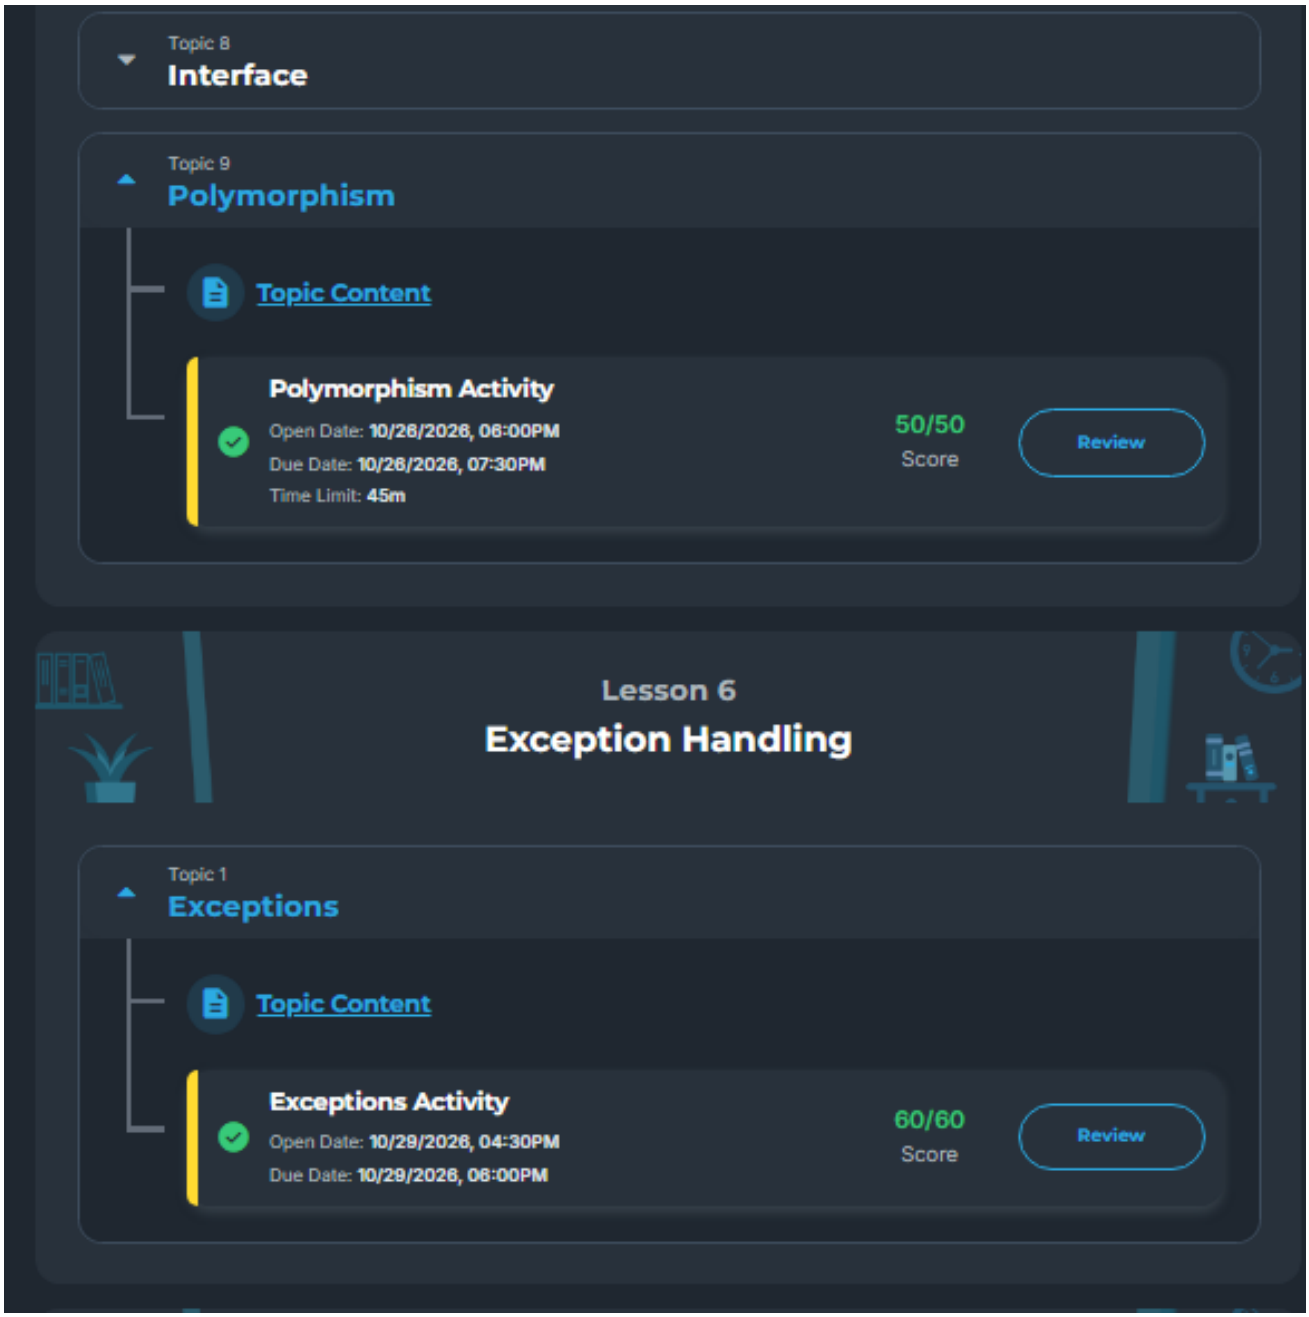

Midterm quiz and review test submission records

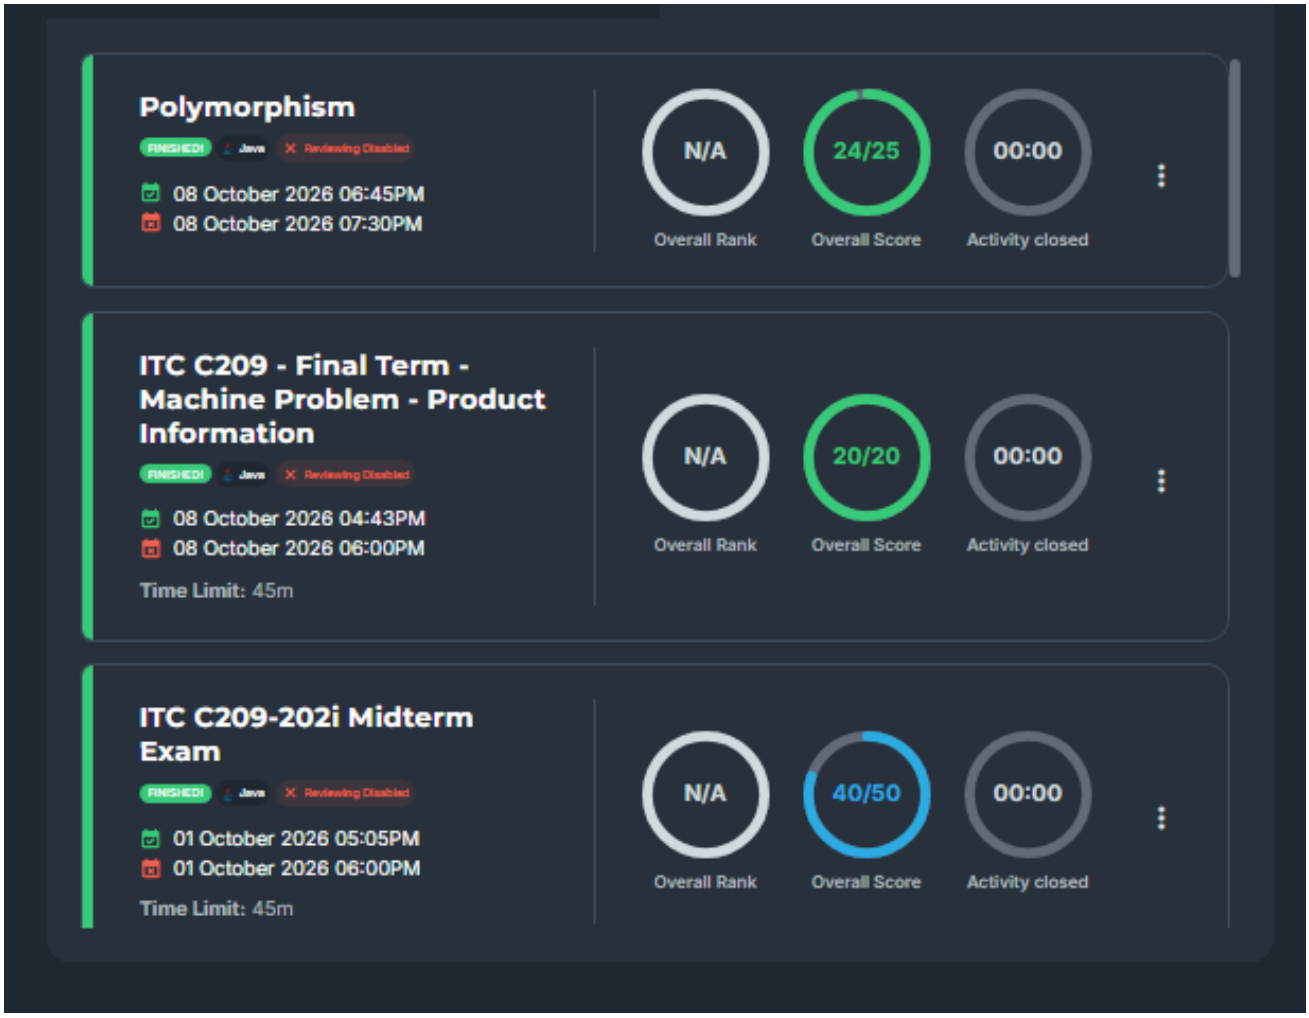

Final Term

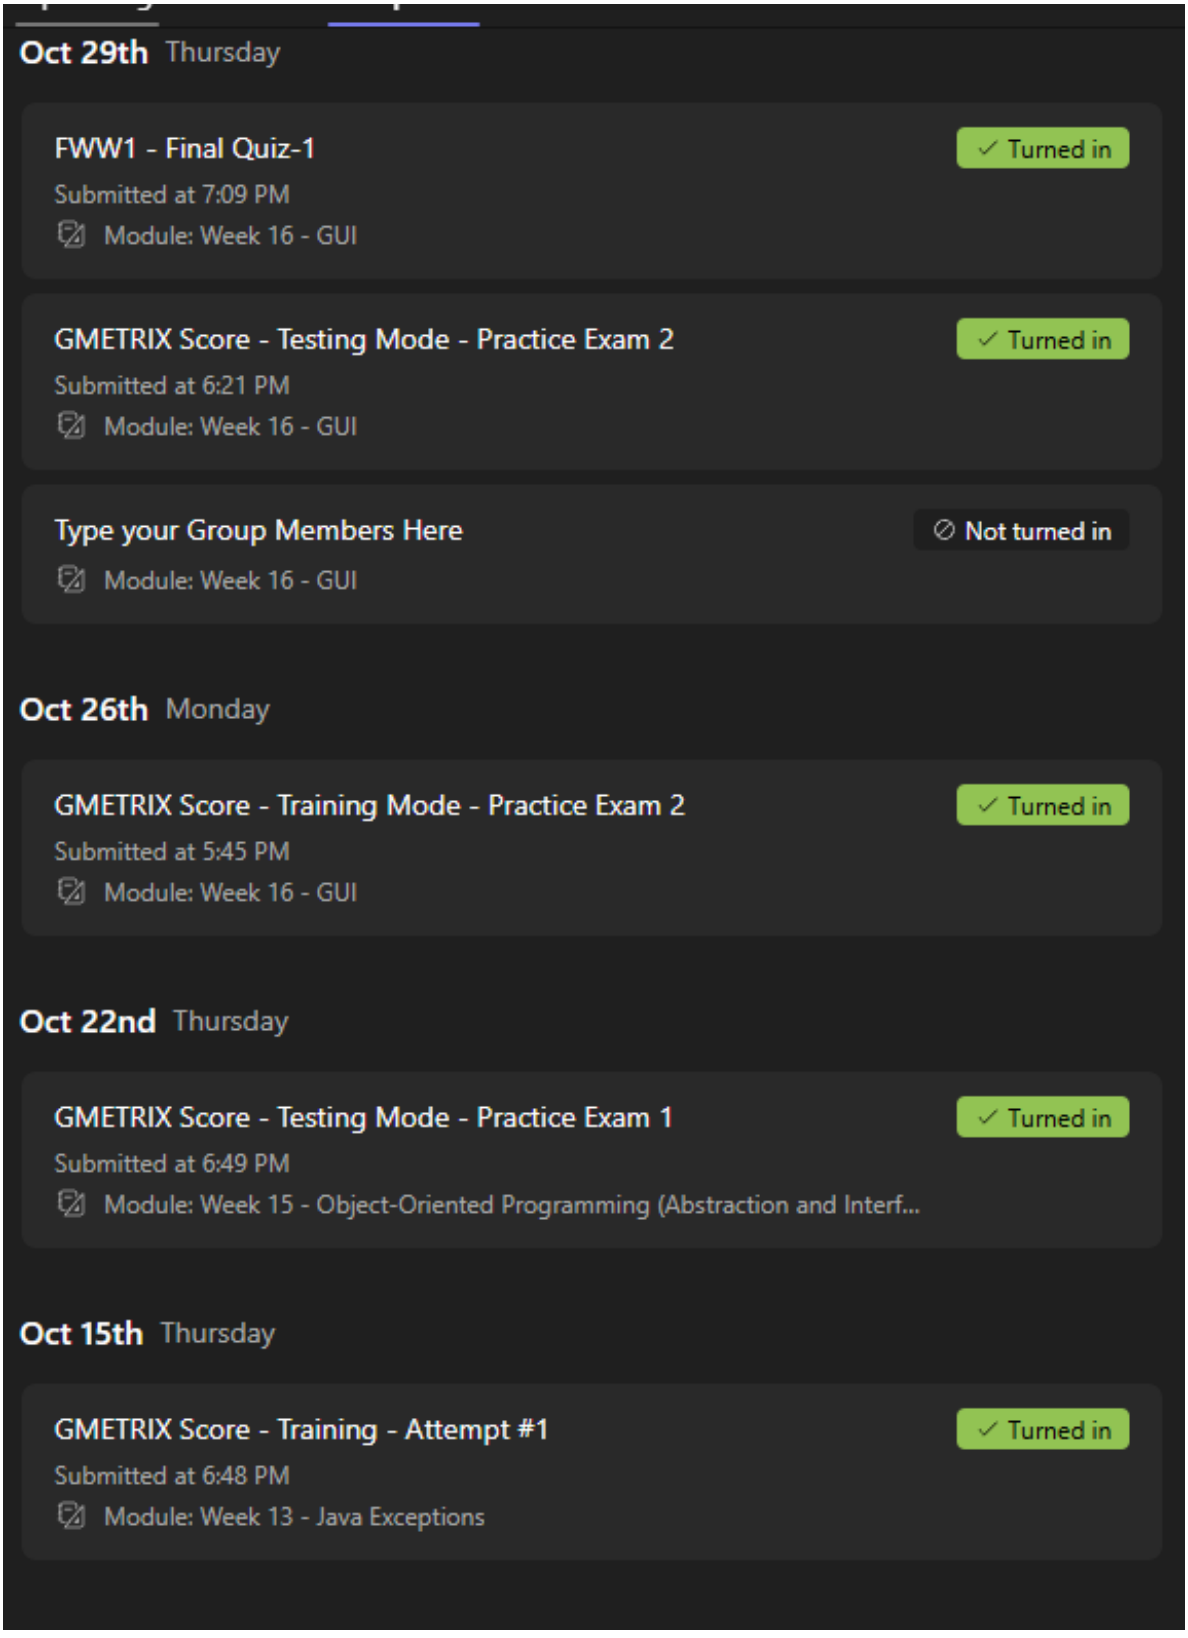

Polymorphism activity

Exception Handling activity

Final quiz and GMETRIX practice assessment records

Assessment score notes

Record	Visible result
Prelim Review Test #1	31/50
Prelim Review Test #2	29/50
Virtual Recitation	5/5
Class Activity – Week 3	10/10
Recitation – Week 3	10/10
Recitation Week 3 – Java Arrays	10/10
Loops activities	50/50 each
Arrays activity	8/10
One-Dimensional Arrays	50/50
Introduction to Functions/Methods	10/10
Methods activities	50/50 each
Class activity	10/10
Access Specifiers	10/10
Encapsulation / Inheritance / Abstract Class / Polymorphism	50/50 each
Exception Handling	60/60
Polymorphism assessment	24/25
Final Term Machine Problem – Product Information	20/20
Midterm Exam record	40/50
Other submitted quizzes / GMETRIX	Score unavailable

Note: Some records were submitted but their scores could not be accessed. Those scores are intentionally not estimated. This compilation can be updated when more screenshots or Java program files become available.
